

Personal Details

Name: Anith T I

Gender: Female

Nationality: Indian

Marital Status: Single

Professional Summary

Passionate Computer Science graduate (2026) eager to launch a career as a Software Engineer. Skilled in Python, Django, Flask, Java, JavaScript, React, Angular, HTML, CSS, Bootstrap, SQL (MySQL, PostgreSQL), MongoDB, Git, GitHub, Docker, Kubernetes, AWS, Azure, REST APIs, Linux, and modern web technologies, with a strong interest in developing efficient, scalable, and user-focused software solutions. Known for adaptability, attention to detail, and a commitment to continuous learning. Excited to contribute fresh ideas, collaborate with innovative teams, and deliver high-quality results in fast-paced environments.

Skills

- Programming Languages: Python, Java, JavaScript
- Backend Frameworks: Django, Flask
- Frontend Technologies: HTML, CSS, Bootstrap, React, Angular
- Database Management: SQL (MySQL, PostgreSQL), MongoDB
- Cloud Platforms: AWS, Azure
- DevOps Tools: Docker, Kubernetes, Git, GitHub, Linux
- APIs: REST APIs, API Integration
- Responsive Web Design Frontend Development
- Basic Backend Development
- Strong Communication Team Collaboration Skills
- Quick Learner with Adaptability to New Technologies

Education

BTECH - Universal Engineering College ,Vallivattom	2022-2026
Plus Two — Govt. Vocational Higher Secondary School, Puthenchira	2019 – 2020
Santhinikethan Public school,Irinjalakuda	Completed: 2019

Certificates

Industrial Visit (16 February 2024) — Doctosmart EdTech, Kozhikode

Attended an industrial visit organized by Doctosmart EdTech, supported by Kerala Startup Mission, Cyberpark Kozhikode, Startup India, and Startup Middle East. Gained insights into startup ecosystems, EdTech innovations, and professional networking practices.

Artificial Intelligence Internship (17 May 2023) — PACE LAB, Kochi

Completed a one-week internship on Artificial Intelligence, covering foundational concepts, real-world applications, and emerging trends. Conducted by PACE LAB, Kochi, under the guidance of industry professionals.

Python Programming Internship (01 July 2024 to 27 July 2024) — KELTRON Knowledge Centre, Kerala

Completed a one-week internship program focused on Python programming, covering core concepts such as data types, operators, control structures, functions, modules, and file handling. Also explored foundational topics in Artificial Intelligence and Machine Learning, including their types and real-world applications. Conducted under the ITBG - Knowledge Services Group of Kerala State Electronics Development Corporation Ltd.

Full Stack with Python (24 August 2020 to 10 July 2025) — GP3 Cloud Innovations & Universal Engineering College

Successfully completed a 180-hour professional training program in Full Stack Development using Python, covering front-end and back-end technologies, database integration, and deployment strategies.

Meta Front-End Developer Specialization (Coursera, 2025) — Meta & Coursera

Completed a multi-course specialization in front-end development. Gained hands-on experience in building responsive web applications and deploying projects.
